

From the Testimony of Wilfred Ofstein about the Un-Believability of the Final Solution

Q: Did you hear about what's going on in Europe at that time? What are the Germans doing to the Jews?

A: Only when we were in Germany and only towards the very end we started hearing. And what we heard we found was so utterly impossible that any human beings would do that that we didn't believe it, we did not believe it. We did not believe it was possible for a nation that prided itself on its "Kultura" would do the things we were told they were doing. We were told about this by Polish prisoners that we met. They told us this was happening and we said: "It's impossible." We did not believe it.

Q: Gentile Polish?

A: Jewish Polish.
